

# FREEDOM OF INFORMATION REQUEST – PROVIDERS 2018

**IMPORTANT: when answering the questions below please note:**

- questions 1-5 are about the **NHS financial year 2017-18**. Question 6 is about changes since 2017/18
- Direct Access Audiology (DAA) is defined by the NHS as an audiology “service where patients are directly referred from primary and community care to the direct access service for both diagnostic assessment and treatment”. For more details see [here](#) and [here](#)]
- adult means any person aged 18 and older
- audiology refers to all audiology care – e.g. DAA, adult hearing services, AQP contracts, ENT support and other services audiologists might deliver
- adult hearing loss means all causes of hearing loss, for example conductive, noise-induced, age-related, complex, non-complex and any other descriptors/causes
- Most questions are written for the audiology department to answer. Questions that refer to currency codes and coding might need to be answered by the finance department and/or audiology.
