	Car Parking spaces					Does your Trust apply any criteria to the issuing of Staff Permits?		What staff parking charges do you apply at your sites?				Do you have ANPR coverage at any of your car parks?				Does your Trust ever grant a relaxation of parking, such as non-peak hours e.g. night time?		How many staff does your Trust employ?		Estates Return Information Collection (ERIC) asks each trust what their average fee charged per hour. What methodology/logic does your Trust apply to the ERIC question S09_06: Average fee charged per hour for staff parking?

Notes	Please only include Trust figures, no need to break down to site level.					This is criteria that allows/limits a permit to be issued, such as travel time, job role etc. Please include as much detail as possible, and supply any policy or procedural document laying out your criteria.		Please list the different charges and who these apply to. E.g. Charged according to salary: <£21,000 - £10 P/M £21,001 - £40,000 - £15 P/M >£40,001 - £20 P/M				Please select only one of the above and type in a captial 'P', which we create a tick (✓)						figures for both tables include assignment status of: Null, acting up, active assignment, internal secondment, maternity & adoption		e.g. Average working days per month = 21. Average fee per month is £15 (£10+£15+£20=£45 / 3 = £15) £15 (monthly fee) / 21 (average work days P/M) = £0.71 (P/D) £0.71 / 12 (hours (ERIC suggestion)) = **£0.06 P/H** Or Standard fee (for all staff) is £18 P/M £18 / 20 (average working days P/M) = £0.86 £0.86 / 9 hours (average time on site for a 7.5 working day) = **£0.10 P/H**
