Freedom of Information Act 2000 – Request for Information

Thank you for your request for information received on 20 August 2019 in relation to the County Durham and Darlington NHS Foundation Trust (Trust). We are dealing with your request under the provisions of the Freedom of Information Act 2000.

You requested information regarding the paediatric allergy services. Specifically you requested information as follows:

Before Christmas, all Trusts in the UK were sent a brief questionnaire establishing whether they provided paediatric allergy services. This was done as a Freedom of Information request (Your reference number if given:), the result being that a response was received from every single trust in the UK. You identified your Trust as being one of the ones that is providing paediatric allergy services.

We are now requesting more detailed information about that service. This again, is being undertaken as a FOI request. We appreciate that this results in a legal requirement to provide the data, but hope the data provided will be immensely valuable for clinicians providing paediatric allergy services, for patients as we establish best practice, and for the BSACI in understanding better what resources centres need going forward.

Explicitly, we do not require colleagues to look up any specific service data - they are asked to approximate responses at certain points - absolute precision is not necessary.

We very much hope the results of this survey will help to contribute to improving the provision of paediatric allergy services in the UK.

County Durham and Darlington NHS Foundation Trust replies:

Please see the attached completed survey.

In line with the Information Commissioner's directive on the disclosure of information under the Freedom of Information Act 2000 your request will form part of our disclosure log.
