

Covid-19/Coronavirus online resources

A number of publishers have decided to make resources relevant to Covid-19/Coronavirus freely available to NHS staff, if you have any problems accessing this information please just contact the CDDFT Trust library service:

Cdda-tr.uhndlibrary@nhs.net

Cdda-tr.dmhlibrary@nhs.net

Emerald

- Emerald have made **research on COVID-19 and the management of epidemics and pandemics** [free for anyone to access](#) and have also made this available with full text and data mining rights to PubMed Central and the World Health Organisation repository. Emerald will **continue to make relevant research freely** available on this site.
- Emerald have partnered with ProQuest to offer [unlimited access to EBook Central holdings](#). Available with a Trust Athens account.

Books

- **Liang, T. (2020) Handbook of Covid-19 Prevention and Treatment, First Affiliated Hospital, Zhejiang University School of Medicine.** – Open Access

Faced with an unknown virus, sharing and collaboration are the best remedy. The publication of this Handbook is one of the best ways to mark the courage and wisdom our healthcare workers have demonstrated over the past two months. The Handbook is available to everyone for free. However, due to the limited time, there might be some errors and defects.

Database and Point of Care Tools

- **BMJ Best Practice**

The COVID-19 content in BMJ Best Practice, which HEE funds for the NHS, is freely available and being continually updated by the BMJ. It includes a patient information leaflet.

- **GIDEON**

Access to **GIDEON (Global Infectious Diseases and Epidemiology Online Network)** has been enabled for all NHS Athens accounts nationally until end of April 2020.

In the context of the spread of COVID19, this resource provides a tracker to identify areas and countries with cases and the number of cases, epidemiological reports, and clinical information.

*Please note that the link to GIDEON is in the menu bar at the top, not in the list of Ovid products

There is also a tutorial available <https://tools.ovid.com/gideon/>

- **Oxford COVID-19 Evidence Service – CEBM**

The CEBM has committed its skills and expertise in evidence synthesis and dissemination to the effort against the current COVID-19 pandemic. The above page will be updated regularly.

- **UpToDate**

Wolters Kluwer are expanding access to UpToDate for anyone seeking the latest evidence-based updates to critical clinical content in the fight against Covid-19 – this includes all clinicians and organisations that do not subscribe to UpToDate.

Please see the direct links below for you to share with your clinical colleagues.

Acute Respiratory Distress Syndrome:

Acute respiratory distress syndrome: Clinical features, diagnosis, and complications in adults

Acute respiratory distress syndrome: Supportive care and oxygenation in adults

Acute respiratory distress syndrome: Epidemiology, pathophysiology, pathology, and etiology in adults

Ventilation:

[Ventilator management strategies for adults with acute respiratory distress syndrome](#)

Prone ventilation for adult patients with acute respiratory distress syndrome

Coronavirus

Coronavirus topic

Patient education topic

Society guidelines

Wolters Kluwer **Coronavirus Resources & Tools page** provides resources across our Health solutions.

- **VisualDx** – web-based clinical decision support system available until the end of June:

<http://ovidsp.ovid.com/athens/ovidweb.cgi?T=JS&NEWS=n&CSC=Y&PAGE=main&D=vdxm&pcodes=vdxc,vdxm,vdxdp>

E-Learning

- **Coronavirus: Learning for the Health and Care Workforce**

This programme has been created by Health Education England e-Learning for Healthcare (HEE e-LfH) in response to the Coronavirus (COVID-19) global pandemic.

The programme includes key materials to help the health and care workforce respond to Coronavirus.

Initially, the Coronavirus programme will include limited resources, but we will add more content in the coming days and weeks. The additional content will include new content and content curated from different sources such as existing HEE e-LfH sessions and other resources from organisations such as NHS England and NHS Improvement or the World Health Organization (WHO).
