<p>* The way in which the information relating to public funerals was recorded, changed after October 2015. At this point the Trust no longer needed to record or report data at the same level of detail as it had previously. As such the Trust does not have some of the information you have requested. In addition with regards to the 'net cost' column, the Trust does have the information, but it is not recorded in a way which would allow for the Trust to provide a response within the time frame allowed for FOIA responses (18 hours). The Trust can confirm that since April 2015 there have been around 1000 lines of spend recorded against funeral expenses in the Trust, totalling over £200k. These costs related to more than the information you have requested and to provide a breakdown of the costs in response to your request would require each record to be reviewed to determine if it relates to your request.</p>
